

First Groom Certificate

Blog + Groomer Print Instructions

Use this as a sweet little client surprise after a puppy or pet's very first groom. It feels premium, photographs well, and gives clients something adorable to keep.

1. Print on premium cardstock

For the nicest look, print the certificate on bright white 80 lb - 110 lb cardstock. Add your Amazon affiliate link in the blog post. Suggested link text: premium white cardstock for groom certificates.

2. Take the paw print before the bath

Use a pet-safe ink pad or clean paw-print kit before the bath, while the paw is dry. Then bathe as normal so the pet leaves fresh and clean.

3. Add the little keepsake touch

Place the finished certificate in an 8x10 frame. Dollar Tree/dollar-store frames are perfect for this - inexpensive, cute, and it instantly feels like a gift.

4. Make it feel personal

Write the pet's name, groomer name, and date. Add a tiny note like "You were so brave today!" or "Fresh, fluffy, and fabulous."

5. Client handoff idea

Hand it to the client at checkout and say: "We made this for their first groom - it has their paw print too!" Cue the awwwww moment.

Affiliate placeholder to paste into your blog:

<https://www.amazon.com/s?k=premium+white+cardstock+80+lb+8.5+x+11&tag=YOURAFFILIATETAG-20>
Replace YOURAFFILIATETAG-20 with your Amazon Associates tag before publishing.

Tip: Print one test page first. Use borderless printing if available, or scale to fit at 100%.
